Programming Nice Era-Inti Remote Control

Copying Code from Previous Remote

1. Hold your new and old transmitters so they are touching head-to-head.
2. Press and hold any button on your new remote until the LED of your old remote-control illuminates, then release.
3. The LED on your old remote control should now be blinking. Next, press and hold any button on your old remote until the LED of your new remote-control illuminates.
4. Release the button on your old remote control and wait for both remote LEDs to go out.
5. Test the operation of your new remote control!

Coding Directly To Your Receiver

1. Press the learning button on your receiver. The LED will turn on for 5 seconds. Complete step 2 within five seconds.
2. Press and hold any button on your new remote until the receiver LED turns off.
3. Release the remote button and wait two seconds.
4. Press and hold the same button on your new remote until the receiver LED flashes three times. If this does not happen, your remote control has not been programmed in.
5. Wait 5 seconds. Press the button on your new remote to test if it opens your garage/gate.
